**Re : Feedback on installation of your Vellux Wireless Paging System.**

We refer to the above and would hereby like to express our complete satisfaction with your system and take the opportunity to congratulate you on an excellent and unique concept.

1. Our customers are very excited about the new set-up in our restaurant as they don't need to be interrupted by a waiter all the time. They simply press a button for service and within a few seconds their waiter are there to help them.
2. We had a bigger turnover over the last month or two and this could be linked to the increase in service by our waiters.
3. Even our kitchen staff is more relaxed as they only need to press a button for the waiters to collect the meals. No more screaming or yelling.
4. Your system definitely makes life much easier for everybody.
5. This means that we can give better service to our valued customers.
