Re : Feedback on installation of your Vellux Wireless Paging System.

We refer to the above and would hereby like to express our complete satisfaction with your system and take the opportunity to congratulate you on an excellent and unique concept.

1. We don't have a telephone communication system between our bar and guesthouse. Your system makes it much easier to communicate between the rooms, kitchen, bar and other areas .
2. The paging system was welcomed by our guests and this means happy guests that will always return to our guesthouse.
3. The most positive thing was that our guests could press the button in their rooms in any emergency and we could respond immediately.
4. In total we feel that your system helped us to better our service and this is very important in our industry.

Directors: Helen Cloete, Jasper Cloete
