Re : Feedback on installation of your Vellux Wireless Paging System.

We refer to the above and would hereby like to express our complete satisfaction with your system and take the opportunity to congratulate you on an excellent and unique concept.

1. We experienced that our waiters is more aware of our customers with your system. They only get called when they are really needed. This puts them under less stress. This results in the fact that they give better service to their tables.
2. The buttons was a big help for our kitchen staff and they are very excited about it. It makes their life much easier.
3. If it wasn't for your system we would never have handled the 'Aardklop-rush' in such an excellent manner. Everything went smooth and we had many happy customers from all over the country.
