RE: VELLUX TILL CALL SYSTEM

To whom it may concern

We have installed the Vellux Till Call System in our group of 9 stores and I am very satisfied that it is the most efficient and subtle manner that I have seen to date, as clients do not wish for attention to be brought upon themselves when queries arise at the point of sale.

I therefore believe that it is value for money in enhancing customer services and it does not matter where the supervisor is, she will know that she is required at till x due to the "watch" on her arm that acts as an alarm but only alerts her and not the whole world as a buzzer and light system would.

You are most welcome to visit any of my stores in East London or Mthatha and speak to the supervisory staff yourself.

Yours faithfully

A handwritten signature in blue ink, appearing to read "Götz von Westernhagen".
