

10 January 2008

We at Wiesenhof Coffees bought the Vellux system last year and would just like to thank you guys for a great tool to improve our service. Our service levels have increased tremendously. The time it takes to turn tables have also increased thus the turnover is also better. Thank you

The Vellux system aside, your service and after sales service is to be commended. If all companies in South Africa can do business the way you do it we will be out of the dark in a matter of weeks.

Keep it up.

Erik Brakhoven.
